PROFESSIONAL SUMMARY

Fresh graduate in Information Technology (GPA 3.73) with 1 year of experience as a Full-Stack Developer, building end-to-end systems (backend API, web admin, mobile app) for fleet logistics management supporting 50+ concurrent users. BNSP-certified Program Analyst (Software Development) with strong command of Laravel, Flutter, MySQL, and REST API. Currently deepening skills in TypeScript, Prisma, and NestJS.

WORK EXPERIENCE

Full-Stack Developer (Internship) — PT Hamada Global Jaya

Oct 2025 – Present | Depok, West Java

- Built an end-to-end attendance and fleet management system supporting 50+ concurrent users by designing RESTful Laravel APIs and an indexed, cached MySQL schema
- Automated field attendance tracking by developing QR code validation and GPS-based location monitoring in a Flutter mobile application
- Improved field data reliability by implementing an offline-first architecture using a local Sembast database with automatic synchronization
- Automated preventive vehicle maintenance scheduling with real-time push notifications (FCM) and a customer approval workflow
- Secured cross-platform (web & mobile) authentication using Laravel Sanctum and JWT tokens

Operations Administrator (Part-Time) — PT Hamada Global Jaya

Jun 2026 – Jul 2026

- Validated transportation cost efficiency across 23 logistics fleets by auditing and reconciling 6,000+ monthly delivery points
-

TECHNICAL SKILLS

Languages: PHP, Dart, JavaScript, TypeScript (basic)

Frameworks: Laravel, Flutter, TailwindCSS, NestJS (basic)
